Or let us scale your recipe from bench to commercialization

About Us

The Montes and Nairn Family ties stretch four generations in the small Merced County farming community of Ballico, California. After more than 45 years of family connections, the Nairns and Montes opened a restaurant together and most recently invested in value-added nut processing equipment to build off of processing Burroughs Family Farms organic almonds. Ag Link Specialty Foods was started in 2019 and is now a custom solution for innovative flavors of snack nuts and nut butters, both organic and conventional.

Check out the **About Us** page on our website at www.aglink.com for more details about the history of these two families.

We look forward to being your Co-Man for all things nutty!

Family owned and operated, we live where the tree nuts grow, right here in California's Central Valley.

We serve anyone in the retail nut marketplace!

- Diversified Farmers
- Nut Handlers & customers
- Farmer's Market Vendors
- Retail Outlets
- Natural Foods Stores
- Online Brands

Sourcing

We have direct relationships with local nut farmers and handlers so you can count on us to get you the best options, or we can process your own stock for you!
